Trustee Scaletta asked Ms. Kingsley about her desire to serve again on the Design Commission. B. Interview of Dr. Sean Barnett for Appointment to the Board of Health - Term Ending: 4/30/17

The Board reviewed Dr. Barnett's resume and discussed his interest in serving on the Board of Health. Mayor Hayes thanked Dr. Barnett for his willingness to serve.

Trustee Rosenberg asked Dr. Barnett what he would like to offer the Board of Health.

Dr. Barnett said as a younger volunteer on the Board he may have more of an opportunity to participate in family events and activities in Arlington Heights and will have the opportunity to interact with other people. Dr. Barnett said being involved with trauma and having extensive experience in dealing with people coming through the ER, he is uniquely positioned as a general surgeon to see a cross-section of every specialty in the hospital. With having young children in school, he also feels there may be issues that come before the Board of Health that would be more interesting to him than to the other members of the Board who have older children.

Trustee Blackwood asked Dr. Barnett what he thought were the biggest health obstacles facing young people between ten and eighteen years old and if he saw a trend of any specific diseases. Dr. Barnett said he does not see any emerging health trends but said the health issues facing young people today are primarily trauma related due to being less cognizant of their surroundings when using cell phones at the same time driving a car or riding a bicycle.

Mayor Hayes said he encourages the Board of Health and other Commissions to think outside the box. He said ideas can come from the Village Board or staff but he would also like to see ideas from Boards and Commissions that the Village can implement to positively impact the community.
