IV. REPORTS

A. Livable Communities

Commissioner Motto reported that he had invited Christina Ferraro to come to the May 15th Senior Citizens Commission to talk about the process she had gone through when she was with the City of Evanston, pursuing the AARP Age Friendly Community certification.

Chairperson Foss suggested that the Commission hear Ms. Ferraro's presentation and then decide what to do.

B. American Society on Aging Conference Report

Commissioner Motto noted that the livable cities concept was an important part of the conference and that it was actually a world health issue. He noted that Johanna Leonard had invited our commission to tour their facilities.

C. Previous Community Assessment Survey

Commissioner Seleski noted that the survey was important. She noted that the key stakeholders should be interviewed, but it was important to get the info (survey data) first.

Commissioner Seleski suggested the three following steps: Deciding when to conduct the survey, deciding how to do it and making sure that it is budgeted.

Commissioner Seleski suggested setting up another meeting and putting together a list of key informants. Karen Hansen suggested interviewing key stakeholders, but also interviewing "staff working in the trenches" as a comparison.

Commissioner Motto had developed a power point presentation and shared several slides.

It was noted that the results of this survey had generated the Senior Commission's Recommended Five Year Plan.
